

ARUN JOSEPH

ASP.NET Core & React Full-Stack Developer

arunjosef872@gmail.com | +91 8086699324 | Kerala, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer experienced in building scalable web applications using ASP.NET Core (.NET 8), React.js, Clean Architecture, and CQRS. Skilled in designing RESTful APIs, real-time applications with SignalR, and event driven systems using Azure Service Bus. Experienced in AI-integrated workflows with Microsoft Semantic Kernel and RAG pipelines. Built and deployed production ready applications with secure authentication, payment integration, and AWS cloud services. Brings a UI/UX design background to create intuitive user experiences while writing clean, maintainable, and scalable code.

TECHNICAL SKILLS

Frontend: React, Redux, JavaScript(ES6+), TypeScript, Next.js, HTML5, CSS3, Tailwind, Bootstrap

Backend: ASP.NET Core, C#, REST APIs, SignalR, CQRS, MediatR, Clean Architecture, MVC, Microservices, Unit Testing, Azure Service Bus, RabbitMQ

Database & Caching: SQL Server, Entity Framework Core, Dapper, ADO.NET, Redis (Upstash)

Cloud & DevOps: AWS (EC2, RDS, S3), Docker, Vercel, Render, GitHub Actions(CI/CD)

Development Tools & Practices: Git, Swagger, Postman, Agile (Scrum), SDLC

Integrations: Razorpay, Cloudinary, MailKit, Leaflet.js, Photon Geocoding

AI & LLM Integration: Microsoft Semantic Kernel (Plugin Architecture), RAG Pipeline, Jina AI, Vector Database(Pinecone), Groq (Llama 3.1), Tesseract OCR, LLM Orchestration & Routing

UI/UX Design: Figma, Adobe XD, Photoshop, Illustrator

PROFESSIONAL EXPERIENCE

Full Stack Developer

Bridgeon | Aug 2025 – Present

- Built REST APIs using ASP.NET Core following Clean Architecture principles
- Worked with SQL Server using EF Core, Dapper, and ADO.NET
- Implemented CQRS pattern using MediatR for structured and scalable backend logic
- Developed frontend features using React with Redux state management
- Tested APIs using Postman and Swagger and fixed backend issues
- Delivered features independently in structured sprint cycles

UI/UX Designer

Webhood Infotech | Mar 2025 – April 2025

- Designed wireframes and UI screens in Figma for web and mobile applications
- Created user-friendly interfaces based on UX principles and design thinking process
- Converted design prototypes into developer-ready layouts
- Conducted usability reviews and refined designs based on feedback
- Improved UI consistency and usability across multiple projects
- Worked closely with developers to ensure accurate implementation of designs

PERSONAL PROJECTS

GD1 – Multi-Tenant Vehicle Parking & Management Platform | May 2026 - June 2026

ASP.NET Core (.NET 8), React.js, SQL Server, SignalR, MediatR (CQRS), Docker, AWS

- Developed a multi-tenant platform connecting vehicle owners, parking providers, and service centers for long-term vehicle storage, maintenance services and fleet management.
- Designed REST APIs using Clean Architecture and CQRS (MediatR) with EF Core & Dapper.
- Built an asynchronous background processing pipeline using Azure Service Bus, MailKit, and QuestPDF for agreement generation and email delivery.
- Developed an AI assistant using Microsoft Semantic Kernel, RAG, and a custom LLM orchestration & routing engine with Groq (Llama 3.1).
- Implemented SignalR for real-time updates, Upstash Redis for OTP and LLM Chat Session caching, and Tesseract OCR for AI-powered document verification.
- Integrated Leaflet.js, Razorpay, Cloudinary, JWT authentication, and role-based access control, then deployed with Docker on AWS and React on Vercel.

Marqelle – Full Stack E-Commerce Platform | November 2025 - March 2026

React, ASP.NET Core, SQL Server, Tailwind CSS, Razorpay

- Built a full-stack e-commerce system with product catalog, cart, wishlist, & order management.
- Implemented JWT authentication, RBAC, and RabbitMQ for asynchronous email verification.
- Integrated Razorpay payment gateway for secure transactions.
- Developed admin panel for product, user and order management.
- Developed RESTful APIs using Clean Architecture and Entity Framework Core.
- Built responsive frontend using React and Tailwind CSS.
- Deployed application on cloud platforms including AWS.

EDUCATION

Bachelor Of Computer Application, BCA, Oriental College, Wayanad, Kerala	2021 - 2024
Higher Secondary Education Fr. G.K.M. H.S.S, Wayanad, Kerala	2019 - 2021
