PROFESSIONAL SUMMARY

Full Stack Developer experienced in building scalable web applications using ASP.NET Core (.NET 8), Clean Architecture, CQRS, and React.js. Skilled in designing backend systems, RESTful APIs, and real-time applications using SignalR. Worked with UI/UX design in Figma and understands user experience principles and the product development lifecycle. Built and deployed applications such as e-commerce and management platforms with secure authentication, payments, and cloud deployment on AWS. Focused on building reliable, scalable applications with clean, maintainable code.

TECHNICAL SKILLS

Frontend: React, Redux, JavaScript(ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: ASP.NET Core, C#, REST APIs, SignalR, Unit Testing, CQRS, MediatR, Clean Architecture
Database: SQL Server, Entity Framework Core, Dapper, ADO.NET
Cloud & Deployment: AWS (EC2, RDS, S3), Docker, Vercel, Render, GitHub Actions
Tools & Platforms: Git, Swagger, Postman
UI/UX Design: Figma, Adobe XD, Photoshop, Illustrator
Integrations: Razorpay, Cloudeary, MailKit, Leaflet.js, Photon Geocoding
AI & LLM Integration: RAG Pipeline, Jina AI, Pinecone, Groq (Llama 3.1), Tesseract OCR

PROFESSIONAL EXPERIENCE

Full Stack Developer

Bridgeon | Aug 2025 – Present

- Built REST APIs using ASP.NET Core following Clean Architecture principles
- Worked with SQL Server using EF Core, Dapper, and ADO.NET
- Implemented CQRS pattern using MediatR for structured and scalable backend logic
- Developed frontend features using React with Redux state management
- Tested APIs using Postman and Swagger and fixed backend issues
- Delivered features independently in structured sprint cycles

UI/UX Designer

Webhood Infotech | Mar 2025 – May 2025

- Designed wireframes and UI screens in Figma for web and mobile applications
- Created user-friendly interfaces based on UX principles and design thinking process
- Converted design prototypes into developer-ready layouts
- Improved UI consistency and usability across multiple projects
- Worked closely with developers to ensure accurate implementation of designs
- Maintained structured design systems for reusable components
- Gained exposure to the full product development lifecycle

PERSONAL PROJECTS

GD1 – Multi-Tenant Vehicle Parking & Management Platform

ASP.NET Core (.NET 8), React.js, SQL Server, SignalR, MediatR (CQRS), Docker, AWS

- Developed a multi-tenant platform connecting vehicle owners, parking providers, and service centers for long-term vehicle storage, maintenance services and fleet management.
- Designed REST APIs using Clean Architecture and CQRS (MediatR) with Entity Framework Core and Dapper for data access.
- Implemented real-time messaging and status updates using SignalR, along with AI-powered document verification using Tesseract OCR.
- Built a production RAG(Retrieval-Augmented Generation) chatbot pipeline using Jina AI embeddings, Pinecone vector database, and Groq (Llama 3.1).
- Integrated Leaflet.js, QuestPDF, Razorpay, Cloudinary, JWT authentication, and role-based access control.
- Deployed the application using Docker on AWS and the React frontend on Vercel.

Marqelle – Full Stack E-Commerce Platform

React · ASP.NET Core · SQL Server · Tailwind CSS · Razorpay

- Built a full-stack e-commerce system with product catalog, cart, wishlist, and order management.
- Implemented JWT authentication with email verification and RBAC.
- Integrated Razorpay payment gateway for secure transactions.
- Developed admin panel for product, user and order management.
- Developed RESTful APIs using Clean Architecture and Entity Framework Core.
- Built responsive frontend using React and Tailwind CSS.
- Deployed application on cloud platforms including AWS.

EDUCATION

Bachelor Of Computer Application

Oriental College, Wayanad, Kerala 2021 - 2024

Higher Secondary Education

Fr. G.K.M. H.S.S, Wayanad, Kerala 2019 - 2021
